

MONEY FOR COUNTY TEACHERS ON HAND

November Salaries Amount of \$2,088.78. Teachers Are Being Paid.

The \$2,088.78, the November payment for the Clark county teachers, has arrived. This money was due the second Monday in November but never arrived until yesterday.

The December payment is due next Saturday, December 12. It is not known whether this will be on time or not. Superintendent Tanner received a card from Professor Crabbe, the State Superintendent stating that he would in a few days inform the Superintendents just when they could expect the December pay.

INDEPENDENTS ARE TO THOROUGHLY ORGANIZE

Tobacco Men Meet in Cincinnati and Apportion Their Share.

CINCINNATI, O., Dec. 5.—Practically the closing scene and transaction in the great and bitterly-fought Harley tobacco war with the Tobacco Trust, during the past two years, was witnessed here yesterday, when representatives of independent tobacco factories in all parts of the country met to apportion the tobacco secured by the Independent Manufacturers' Association from the Equity Society.

The quantity secured by the Independent Manufacturers' Association was 25 per cent or 20,000,000 pounds, which will be divided among the independents.

It is understood that when the work of apportioning the tobacco is concluded, preliminary steps will be taken to build up and strengthen the Independent Manufacturers' Association and make of it a powerful organization to resist any further encroachments of the so-called Tobacco Trust on the trade and business of the independent manufacturer.

It is also understood that the independents, when the organization is finally completed, will co-operate with that element of the tobacco planters that opposes the formation of another equity pool for the crop of 1909.

Use for Electric Fan.

The electric fan is now employed in many modern homes for drying the dishes. The dishes are washed and placed on wire racks and rinsed with hot water. The fan is placed to throw a strong breeze on them and they are quickly dried. The fan can also be used to dry lace curtains which have been placed on stretchers.

DR. D. H. MCKINLEY HAS GOOD OFFER

May Be Assistant Superintendant at Eastern Kentucky Asylum.

Dr. D. H. McKinley has been offered the position of assistant superintendent at the Eastern Kentucky Lunatic Asylum at Lexington and now has the matter under advisement.

It is quite an honor, for if he accepts he will be the youngest man ever having filled this responsible position.

CLEANING UP A PROFIT.

An Advertising Man Says Cleanliness Is Next to Prosperity.

"The other day," says an advertising man of long experience, "I noticed in a country paper one of the best display ads. I've seen in a long time. The merchant was advertising for trade, and he printed some of his specific bargains—actual figures and all that—but it was the catch phrase of his advertisement that caught me. Of course a catch phrase ought to catch, you know. This particular advertiser's phrase was 'The Clean Store,' and he enlarged upon it in this way:

THE CLEAN STORE

Clean Floors.
Clean Shelves.
Clean Goods.
Clean Prices.
Clean Dealing.
Clean Conscience.

"Now, that," continues the advertising expert, "ought to clean up a whole lot of cash. Why, in this age of microbes and germs and bacteria and so forth clean floors and clean shelves should attract much patronage, and clean dealing and clean conscience ought to catch the multitude. The merchant who advertises in that way can't afford to lie. If he does, somebody is sure to find it out and peach on him. Then all his claims of cleanliness go to smash. That advertiser is the sort of man who catches the patronage of the careful people, those who are particular about where and what they buy. Let me hurl you a little hint—just this, lots of folks are tempted to buy through mail orders because they see so much slovenliness in some of the local stores. They like clean things, and it behooves a home merchant to keep his place looking attractive and inviting, and the dealer who advertises his wares to the home people in this manner is pretty sure to clean up—mark the phrase—a clean profit from year to year."

NEW KIND OF PLAYGROUND.

One That Enhances Real Estate's Value and Has a Double Efficiency.

Rosedale playground, in Washington, illustrates a new style of playground development, which did not, however, lack a plea in its behalf at the recent playground convention. Possibly the fact is significant that it is the latest playground in Washington that has been improved. The whole sum available was \$5,000. Out of this gymnastic apparatus and a wading pool were to be provided and all the work done, and the plans were made by one of the most eminent landscape architects in the United States. The playground, says a description, has been surrounded by a hedge and wire fence and ornamented with trees and shrubbery.

In other words, beauty having been brought into it, it is fitted to serve the needs of adults as well as of children and the latter's needs none the less because of the too unusual aesthetic element. It enhances the value of surrounding real estate instead of depreciating it, and its work becomes both social and physical—not other one alone, for it is not, on the other hand, a place for loafing nor, on the other, one simply for active play. The space has a double efficiency.

Everything of Some Good.

Since fables teach wisdom, mistakes prove to be joys and losses are often our gain, it would seem as if everything in the world is for good after all.

BOWDEN CASE.

The case of Bowden and Lexington & Eastern Railroad is still on trial in the Circuit Court as The News goes to press.

Claret.

"Claret" is a word unknown to the French cultivator. Vinum claretum—i. e., clarified wine—came into early use in English as "claret" or "clarry," to distinguish the beautifully pella wine of Bordeaux from those of Burgundy and other vineyards.

EIGHT BUILDINGS WRECKED BY FLOOD

Water at Pine Bluff Is Undermining Eastern Dyke.

Pine Bluff, Ark., Dec. 5. — Seven frame dwelling houses and a two-story business building was the toll claimed by the encroaching waters of the swollen Arkansas river, eating their way across Barrage and near Georgia streets, two blocks east of the county courthouse, the former danger zone, which was relieved when the current was deflected through the dynamiting of the north bank of the river, opposite Pine Bluff, and thrown against the government dyke at this point. The river is continuing to slowly rise and the water is gradually undermining another dyke, farther east, which will probably crumble. Should the anticipated occur, the extreme eastern section of the city, which has but recently been rebuilt following the destructive fire of two years ago, will be endangered.

IMITATES HIS WIFE

Man Drinks Carbolic Acid Left in Bottle and Both Die.

Wheeling, W. Va., Dec. 5.—"She did not take all of it and I will finish it," said William Shorts of Bridgeport, O., as he drained the contents of a bottle of carbolic acid a few minutes after his wife, Kittie Shorts, had taken poison. Both died soon afterward. The couple quarreled when Shorts had the woman arrested in company with an alleged former lover. Shorts two years ago shot his sweetheart, Anna Miller, and served a term in the Ohio penitentiary.

A man seldom creates much envy by building for himself a fine mansion.

Great Scott!

If our people don't know a good thing when they see it, no use of looking for people who do.

We mean this in candid sincerity, and we want to thank the people who have so generously heeded our solicitations for their work in the last six weeks.

We are now adding to our force at the rate of one man a day.

And now that the Tobacco money is soon to become a Prodigal Son, lets all put our shoulder to the wheel of prosperity, and show the world that Winchester is not only the home of the largest deals, but is the largest 10,000 city of this glorious America. And that the

Eagle Casting Co.,

of Winchester (incorporated) is giving better work and better prices on Castings of all kinds, Coal and Lumber Cars, Cement Clamps, Gas Furnaces and Structural Steel, than any similar institution in Kentucky.

F. G. CORNELL, Gen'l Manager.
